

# Grab and Go Water Bottle Caddies

By Oneness Gogos

Each Grab and Go Water Bottle Caddy has a long strap for over the shoulder or across the body carrying. Straps vary in length. OR we can make one to fit you.

As this is a cottage industry not all fabrics are available at any given time (when it runs out, it is gone). However, if there is a colour or design that you would like let us know and we will see if we can provide.
